

Application for a special depreciation rate

About this form

This form is used to apply for a special depreciation rate. You should apply for a special depreciation rate if you believe that the applicable depreciation rate for your item of depreciable property in the Commissioner's Table of Depreciation Rates (this is available in the booklet **Depreciation rates - IR265** and in the depreciation rate finder in the "Work it out" section of our website **ird.govt.nz**) is not appropriate because of the way in which your item is used in your business. **Note:** After 20th May 2010 you can no longer apply for a special depreciation rate on buildings.

General rates are set in bands, the bands are found in Schedules 11 and 12 of the Income Tax Act 2007. Having banded rates standardises the number of depreciation rates that customers and Inland Revenue need to manage. A special rate will generally only be issued if it is more than half the difference between the item's general banded rate and the next higher (or lower) banded rate contained in Schedule 11.

If there is no applicable depreciation rate for your item in the Commissioner's Table of General Depreciation Rates, please complete the form **Application** for a provisional depreciation rate - IR260A instead.

Fees are payable for this application. Notes concerning fees, as well as the process and timeframe for responding to this application, are contained at the end of this form.

Further information about depreciation is contained in the booklet Depreciation - IR260.

Send your completed application to: LTS Manager - Technical Standards, National Office, Inland Revenue, P O Box 2198, Wellington 6140.

Notes

Procedure for setting a determination

Once we have received this application we will issue you a letter acknowledging receipt. We may also contact you to request any additional information, if required. We may also engage the services of a consultant valuer.

Once we have all of the necessary information to issue the determination we will prepare a draft determination, and send it to you, or will issue you with a notice that we are declining to issue a determination. You will be invited to request a conference to discuss the draft determination. After the conference has been held, or if no conference is requested, the determination or decision to decline will be finalised.

Timeframe for response

- We will issue the determination you have applied for, or decide to decline to issue a determination, within six months of receiving a completed application. If this is not possible we will contact you to request that you agree to an extension of the time limit.
- We will issue you written notice of the decision and a copy of the determination or the reasons for declining to issue the determination within
 30 days of issuing the determination or deciding to decline to issue the determination.

Fees

The following fees are payable for this application:

- an initial fee of \$150 (plus GST) payable when you apply,
- a processing fee of \$75 (plus GST) per hour (or part hour) after the first two hours for work by Inland Revenue staff,
- further fees for the costs of consultants if you request that the consultant carries out further work, or if they are required to attend a conference.

The \$300 cap to reimburse us for the consultant's fee has been removed. If we engage a consultant to advise on the estimated useful life or estimated residual value of the asset, we'll charge you the consultants fee (excluding GST), plus GST.

We will provide you with an estimate of the fees that are likely to be incurred in issuing the determination shortly after we have started processing your application.

Withdrawal of application

You may withdraw an application at any time by writing to the address supplied above. Fees will be charged up to the date we receive your written notice of withdrawal.

Further information

Further information about depreciation is contained in the booklet **Depreciation - IR260** and on our website **ird.govt.nz** You may also seek further information by calling us on 0800 377 774.
