

19 March 2024

Dear [REDACTED]

Thank you for your request made under the Official Information Act 1982 (OIA), received on 27 February 2024. You requested the following:

I'm doing some research on income distributions between New Zealand males and females, and I'm having some trouble finding the relevant data. The link below provides a dataset that shows the income distribution for all NZ'ers but I'm hoping you can provide a more detailed version showing the difference between males and females.

<https://www.ird.govt.nz/about-us/tax-statistics/revenue-refunds/income-distribution/tax-on-taxable-income-datasets>

Information being released

The attached spreadsheet provides the information requested in the same format used for the data on the Inland Revenue website referenced in your request. The tables in the spreadsheet display the (rounded) number of people, total taxable income, and total tax on taxable income by income bands and split by inferred gender.

As you have not specified which years you are requesting, data is provided for the latest available five years, i.e. years ended 31 March 2018 to 31 March 2022 inclusive. Income data for the year ended 31 March 2023 is not yet available, with income tax returns still arriving.

The income bands displayed are consistent with the tables on the website, displayed in bands of taxable income up to \$300,000. Taxpayers with nil taxable income generally have brought-forward, or current-year losses. The \$0.01-\$100 category from 2018-19 onwards helps with interpretation of a structural break in the data where a greater number of taxpayers received automatic square-ups for tax on small amounts of investment income.

Gender is not specifically collected by Inland Revenue. For the purposes of this request, we have used titles to infer gender as follows:

- Male – Mr, Master, Lord, Reverend Father and Sir.
- Female – Miss, Mrs, Ms, Lady, Reverend Mother, Sister and Dame.
- For all other titles (e.g. Captain, Colonel, Doctor, Hon, Judge, Major, Mx, Professor, Reverend), including where the title is not held, gender is classed as 'unknown.'

The unknown category has small volumes, less than one percent of the overall total, for which we have not provided any distributional information as this group is not the focus of your request. Totals where the inferred gender is "unknown" are provided at the bottom of each table.

Publishing of OIA response

We intend to publish our response to your request on Inland Revenue's website (www.ird.govt.nz) as this information may be of interest to other members of the public. This letter, with your personal details removed, will be published in its entirety. Publishing responses increases the availability of information to the public and is consistent with the OIA's purpose of enabling more effective participation in the making and administration of laws and policies and promoting the accountability of officials.

Thank you for your request.

Yours sincerely

Sandra Watson
Policy Lead, Forecasting & Analysis

Year ended 31 March 2018

Taxable Income bands to \$300,000	Female			Male
