

Inland Revenue
Te Tari Taake

17 May 2021

[REDACTED]

Dear [REDACTED]

Thank you for your request of 16 April 2021, made under the Official Information Act 1982 (OIA). You requested:

The total Personal Income Tax revenue collected, from all NZ taxpayers by income band, for the year ended 31st March 2020. For example, each \$10K of individual income up to \$200K and each \$50K for incomes over \$200K.

Data for the 2019/20 tax year, ending 31 March 2020, is still partly incomplete, because not all returns have been filed or processed yet.

However, I have attached a table containing the information you requested, based on data extracted from Inland Revenue's systems on 12 May 2021. This data is incomplete and subject to revision. Official data on this topic will be published on our website when the data is available. We expect that this will be in December this year.

Please refer to Inland Revenue's website (<https://www.ird.govt.nz/about-us/tax-statistics/revenue-refunds/income-distribution>) for a more detailed description of the income tax reflected in the attached table.

Please note that the table displays income tax before any allowances for tax credits such as imputation credits or Working for Families tax credits. Individuals who only received interest income with resident withholding tax (RWT) deducted at source, or portfolio investment entity (PIE) income, who have not squared-up are not included in the table.

Thank you for your request. I trust that this information is helpful.

Yours sincerely

[REDACTED]

Sandra Watson
Forecasting & Analysis Manager
